## Full-Stack Developer | Proficient in Java, Spring Boot & Angular | Building Scalable Web Applications

---

### *Top Skills*

- **Full-Stack Development:** Proficient in building dynamic web applications using Java, Spring Boot, and Angular. Experienced in creating RESTful APIs and integrating front-end and back-end functionalities to ensure seamless user experiences.
- **Java & Advanced Java:** Extensive experience in Java programming, focusing on object-oriented design and development. Completed multiple projects using advanced Java concepts, including concurrency, design patterns, and multi-threading.
- **Spring Boot:** Skilled in developing microservices and RESTful applications with Spring Boot. Knowledgeable in utilizing Spring's features for dependency injection, security, and database management, resulting in scalable and maintainable applications.
- **Angular:** Strong proficiency in Angular for creating responsive single-page applications (SPAs). Familiar with component-based architecture, RxJS for reactive programming, and state management using NgRx, ensuring optimal performance and user engagement.
- **Database Management:** Proficient in MySQL and MongoDB, with experience in designing and managing databases, writing complex queries, and optimizing performance.
- **AI & Cloud Computing:** Passionate about leveraging AI tools to enhance application functionality. Basic knowledge of cloud services (e.g., AWS, Azure) for deploying applications and implementing cloud-native architectures.
- **Project Collaboration:** Collaborated with cross-functional teams on multiple web development projects, ensuring timely delivery and quality through effective project collaboration.
- **Version Management:** Utilized Git for version management, ensuring seamless collaboration and version control across all development projects.
- **Knowledge Sharing:** Facilitated knowledge-sharing sessions within the team to enhance skill sets and project outcomes.
- **Communication:** Effectively communicated project updates and technical concepts to both technical and non-technical stakeholders, enhancing collaboration and project alignment.

### *Work Experience*

**OctaNet Services Pvt Ltd, Bhubaneswar, Odisha**

**Web Developer Intern**

05/2024 - 08/2024

Developed and maintained client portals using HTML, CSS, and JavaScript, resulting in improved user interfaces and engagement. Assisted in troubleshooting and debugging web applications, enhancing functionality and user experience. Collaborated with design teams to implement responsive design principles, ensuring compatibility across various devices and browsers. Earned an internship completion certificate for consistently meeting deadlines and delivering quality work.

**Prodigy InfoTech, Mumbai**  
**Web Developer Intern**

05/2024 - 06/2024

Contributed to the development of web applications by implementing front-end features using HTML, CSS, and JavaScript. Participated in code reviews and team meetings to share knowledge and improve project workflows. Gained experience with version control using Git, helping to manage project collaboration efficiently. Received a certificate of completion for successfully delivering all assigned tasks within the project timelines.

**CodSoft, Kolkata**  
**Web Developer Intern**

04/2024 - 05/2024

Created user-friendly interfaces and improved existing web applications by applying best practices in HTML, CSS, and JavaScript. Earned a certificate of appreciation for my contributions to the team and the successful completion of all project objectives.

***Education***

**Bachelor of Technology in Computer Science and Engineering** (Expected Graduation: 2026)  
Centurion University of Technology and Management, Paralakhemundi Campus, Odisha  
**CGPA:** 8.9/10

**Intermediate (12th Grade)**

Year: 2022

Mahendra Jr. College, Pathapatnam

**Percentage:** 88%

**Matriculation (10th Grade)**

Year: 2020

Tagore Memorial High School, Uppalada

**Percentage:** 61%
